

# COMMUNITY OUTREACH EVENT

## Cleveland Clinic Neurological Institute Building

The Cleveland Clinic, in collaboration with Turner Construction, invites you to participate in our business-to-business and career fair event. The Neurological Institute Building, one of the BIG 3 projects, will showcase both contract and career opportunities. To effectively deliver an integrated model of world class care, Cleveland Clinic partners with best in class organizations – both large and small – that complement our caregiver strategy of “Patients First.” Together, we strive to improve economic health and care for the communities we serve.
